Specifications

EZ Guide Retrofit Holder

Weight:

"Lightweight" at under 14 LBS

Length:

17.5" x 26" (L x W)

*** Includes 1 Year Warranty**

In today's society, two-thirds of the U.S. population is overweight. One-half of the U.S. population suffers from obesity. Many Radiological Technologists are injured while performing portable X-ray exams due to patient obesity. Hospitals also spend millions of dollars each year replacing their X-ray Cassettes, CR Cassettes and DR Wireless and Wired Detectors Grid Holders due to patients obesity.

The **EZ Guide Retrofit Holder** is:

Solidly Constructed

- **Patented designed Back Panel**, which enables **Radiology Departments existing Grid Holders** or the **EZ Guide Protector** to be slid underneath patients without lifting them
- **Curved corners** and **smooth surface** to ensure patient's comfort
- Enables Technologists the ability to see the **image field of view at all times**
- **Two handles** provide Radiology Technologists with the support needed to position the cassette holder underneath the patient
- Tested to withstand **500lbs**

Cost Effective

- Can be used for "**Conventional**" and "**Digital**" Radiography
- Fits perfectly with **EZ Guide Protector Product**
- EZ Guide Retrofit Holder is designed to stay underneath patients for a short period of time for multiple exams usage (**chest, abdomen, pelvis**) for pathology, tube placement or small bowel series
- EZ Guide Retrofit Holder fits most Radiology Department existing **14 x 17 format DR Wireless and Wired Detectors, CR and Film Cassettes Grid Holders**
